

## REMARKS

Applicants have amended the specification by replacing pages 48-92 of the Specification, containing the original Sequence Listing, with the enclosed pages 48-92, which contain a Substitute Sequence Listing.

The Subsitute Sequence Listing addresses the raw sequence listing error report issued in conjunction with the February 25, 2003 Notification of Defective Response (copy attached hereto). Accordingly, applicants have added the mandatory information to lines <140>, <141>, <150> and <151> of the Sequence Listing as follows:

<140> US 10/048,588

<141> 2002-10-15

<150> PCT/EP00/08827

<151> 2000-09-08.

Additionally, the applicants have amended the sequence listing to reflect the source of the genetic material identified as an "Artificial Sequence" at line(s) <213>. Finally, the errored sequence information at lines 2723, 2726 and 2741 have been deleted.

None of these additions to the mandatory information lines of the sequence listing constitutes new matter.

Applicants also submit herewith a Statements in Support of Computer Readable Form Submission under 37 C.F.R. §§ 1.821(f) and 1.821(g), stating that the contents of the paper and CRF copies are the same and include no new matter.

Applicants request entry of the amendments and consideration of the claims.

Respectfully submitted,

*Shawn Marie Mayrand*
